

We are thrilled to share an exceptional opportunity for Northern Irish businesses striving for sustainability and improved operational efficiency—the Energy Efficiency Capital Grant (EECG). This initiative, spearheaded by Invest Northern Ireland and backed by the UK Shared Prosperity Fund, is designed to help businesses significantly reduce their energy usage and carbon emissions through substantial financial support.

Grant at a glance

Up to £150,000 available to support the purchase and installation of energy-efficient technology.

Funding Rates

Small and Micro Businesses: Up to 50%

Medium-Sized Businesses: Up to 40%

Large Enterprises: Up to 30%

Eligible Upgrades

Upgrading heating and cooling systems

Improving lighting efficiency

Implementing onsite renewable energy solutions

Our Services

Comprehensive Energy Audits

We transform data into actionable insights, enabling tailored upgrades that maximise both energy efficiency, savings and grant eligibility.

Customised Project Implementation

From planning to execution. We ensure every aspect of your project aligns with EECG requirements and your long-term objectives.

Grant Application Support

Our team will assist you in navigating the application, maximising your funding potential while minimizing complexity.

The EECG is a game-changer for businesses in Northern Ireland. Securing this grant could be your next big step towards sustainability and cost savings. Let our expert team, with a track record of 15 years in grant writing, navigate you through the process effortlessly.
